### Creating a Custom Alarm via Alexa Skill

Follow the steps in this tutorial:

<https://www.hackster.io/nishit-patel/controlling-raspberry-pi-using-alexa-33715b>

For step 4, instead of using the python code provided by the tutorial, use python code in the file called "alarm.py" found on our GitHub repository.

For step 5, instead of copying and pasting the tutorial json file, use the json file called "alarm.json" found on our GitHub repository.
